Plant Ecology

An international journal

Contents of Volume 138

Structure of herbaceous plant assemblages in a forested riparian landscape
J. Lyon & C.L. Sagers 1–16

Seed germination and seedling performance of two Mediterranean tree species, holm oak (*Quercus ilex* L.) and Aleppo pine (*Pinus halepensis* Mill.): a multifactor experimental approach
M.J. Broncano, M. Riba & J. Retana 17–26

Physiological and morphological acclimation of shade-grown tree seedlings to late-season canopy gap formation
S.L. Naidu & E.H. DeLucia 27–40

Differences in the vegetation of the North Iberian Peninsula during the last 16,000 years
P. Ramil-Rego, C. Muñoz-Sobrino, M. Rodríguez-Guitián & L. Gómez-Orellana 41–62

Nitrogen distribution and leaf area indices in relation to photosynthetic nitrogen use efficiency in savanna grasses
N.P.R. Anten, M.J.A. Werger & E. Medina 63–75

Analysis of vegetation structural diversity by Burnaby's similarity index
L. Carranza, E. Feoli & P. Ganis 77–87

The influence of soil depth on plant species response to grazing within a semi-arid savanna
S.D. Fuhlendorf & F.E. Smeins 89–96

Non-symmetric correspondence analysis: an alternative for species occurrences data
C. Gimaret-Carpentier, D. Chessel, J.-P. Pascal 97–112

Riparian zones as havens for exotic plant species in the central grasslands
T.J. Stohlgren, K.A. Bull, Y. Otsuki, C.A. Villa & M. Lee 113–125

Defoliation and woody plant (*Prosopis glandulosa*) seedling regeneration: potential vs realized herbivory tolerance
J.F. Weltzin, S.R. Archer & R.K. Heitschmidt 127–135

Development of black spruce growth forms at treeline
D. Pereg & S. Payette 137–147

Nutrient concentration in *Sphagna* at increased N-deposition rates and raised atmospheric CO_2 concentrations
J. Jauhiainen, H. Vasander & J. Silvola 149–160

Longitudinal patterns of plant diversity in the North American boreal forest
H. Qian, K. Klinka & G.J. Kayahara 161–178

Effects of nutrient and soil moisture on competition between *Carex stricta*, *Phalaris arundinacea*, and *Typha latifolia*
P.R. Wetzel & A.G. van der Valk 179–190

Effects of grazing on plant species composition and spatial distribution in rangelands of the Sahel
P. Hiernaux 191–202

The role of water depth and soil temperature in determining initial composition of prairie wetland coenoclines
E.W. Seabloom, A.G. van der Valk & K.A. Moloney 203–216

Soil heterogeneity effects on canopy structure and composition during early succession
B. Collins & G. Wein 217–230

Using image-analysis to quantify the horizontal vegetation pattern in two multi-species savanna grasslands
B. Fransen, M. de Boer, M. Terlou, H. During & W. Dijkman 231–237

Book reviews 239–242

Instructions to authors 243–246

Contents volume 138 / List of contributors 247–248
